March 11<sup>th</sup>, 2010.

Dear Sir or Madam:

I am writing to express my interest in applying for the Bachelor's Program in Management and Finance.

After completing the Bachelor's Program, I plan to continue my education in Master's Program and perhaps even, obtain a PhD. D. in Economics. My objective is to gain adequate education and make a career investigating issues concerned with financial management as it affects organizational strategy, structure and systems.

I have a FCE in English, which is an intermediate level Cambridge ESOL exam, at level B2 of the Council of Europe's Common European Framework. This gives me the ability to study in an English speaking environment. My academic performance has been always on top of class, and I have been an apprentice in my country's National Oil and Gas company NIS for a period of six months during last two years.

I have graduated from High school with honors, and I shall receive my high school diploma in a few weeks. My graduating paper was based on my personal research about the influence of Financial sector on Marketing department in our National Oil and Gas company NIS.

To further prepare myself better for Your program, I have completed a course in Strategic Planning in Faculty of Economics in Belgrade University. I have also taken courses in e-Commerce and Financial Mathematics in Excel. Moreover, I made extensive use of spreadsheet, word processing, and presentation software packages for analysis and preparation of presentations and reports during my apprenticeship.

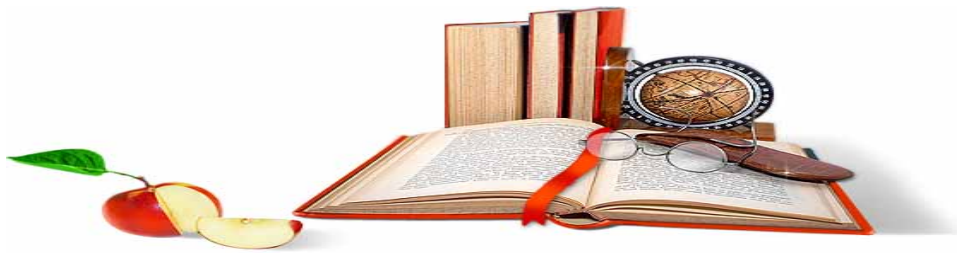

I have a strong academic background, as evidenced by my diplomas from high school and courses, and also excellent letters of recommendation from my mentors in NIS. I am confident that the Bachelor's Program in Marketing and Finance offered by University of Bocconi will provide me the knowledge, confidence, and contacts to realize my dreams. Moreover I can say that I would like to continue my studies afterward, in order to gain knowledge and experiences by academic research and I believe this Program would offer me the possibility of receiving the complete picture of all aspects of this field.

The reason for choosing this specific Bachelor Program comes from the fact that Bocconi has a tradition of over 100 years long, and is the first Faculty of Economics in Italy. Also, in the near future I would like to get to know more things regarding for example Computer accounting models. I already have some ideas in my head, but unfortunately, now I do not have the right knowledge and the right tools for putting them in practice and that is why I know that this Bachelor Program would be an excellent starting point for me. Also if I do get
